

2025 Math Masters

Mathematics Challenge Competition for 4th, 5th & 6th Graders

You are Invited to Join Us in 2025
for This Fun and Enriching Program

WHAT IS MATH MASTERS?

The Math Masters mathematics competition program challenges 4th, 5th and 6th grade students to use critical thinking and problem-solving skills in mathematics. Students compete as individuals and on teams in 7–8 rounds of competition, with their academic effort and achievement recognized with plaques, medallions and ribbons.

In 2025, Math Masters is planning more than 70 in-person competitions throughout MN, western WI, and in CO, including new sites in Woodbury, MN and Castle Rock, CO. Our 2025 competitions are expected to welcome more than 5,000 students.

How Does Math Masters Work?

- ◆ Teachers, coaches and parents select a competition and register their students. Register as many teams and students as you like—all are welcome!
- ◆ Once registered and paid, watch your email for your coach packet that contains selection tests, practice tests and competition details.
- ◆ Start practicing! You can practice before, during or after school—whatever works best for you!
- ◆ On competition day, students gather to compete, have fun and make new friends. Competitions last several hours and include a short break with snacks. All registered students get a free t-shirt!
- ◆ Competition format: All students compete independently in the Fact Drill round, Individual rounds and a Tiebreaker round. Students who register as part of a team also compete in three Team rounds.
- ◆ Winners in each competition category (Fact Drill, Individual and Team) receive awards, including plaques, medallions and ribbons. Everyone receives a participation certificate.
- ◆ Top statewide finishers in each grade are invited to a Minnesota Twins baseball game to celebrate their achievement.
- ◆ Learn more: www.math-masters.org.

Competition Test Topics

Seven—eight rounds of problems (depending on grade level) cover a number of mathematical areas, including:

- ◆ Number Facts / Order of Operations
- ◆ Numeracy / Properties of Numbers
- ◆ Geometry / Time / Money
- ◆ Statistics / Probability / Counting
- ◆ Decimals / Fractions / Percents

Coach Packet Contents

After payment is received, each coach receives a packet of helpful information and important competition details, including:

- ◆ Competition test and answers from the previous year
- ◆ Team selection tests
- ◆ Suggested team selection plan
- ◆ Competition schedule & procedures
- ◆ Helpful hints

Practice Materials

For those who would like additional practice, packets of past competition and selection tests with solutions are available for purchase during registration—simply add them to your cart.

These same materials can be purchased independent of registration on the Math Masters website: http://www.math-masters.org/competitions/practice_materials/.
