

Sponsor Today's Students and Tomorrow's Professionals!

October 2021

On behalf of thousands of students who participate each year in the Math Masters competition program, we invite you to become a 2022 Math Masters sponsor and join us in support of future professionals in math- and STEM-focused careers, including engineering, finance, science and economics.

The Students You'll Support

Your sponsorship will help Math Masters continue to grow and reach more students in Minnesota and neighboring states. For the first time in 2022, Math Masters will host 4th grade competitions in addition to our traditional 5th and 6th grade competitions. Math Masters welcomes and encourages all public, private and home school students to participate. Your support also helps keep registration fees low, which in turn keeps participation accessible for all.

What is Math Masters?

The Math Masters mathematics competition program challenges 4th, 5th and 6th grade students to use critical thinking and problem-solving skills in a fun competition setting. Students compete as individuals and on teams to solve math problems, receiving recognition for their academic achievements.

Our annual competitions typically welcome 5,500 students throughout Minnesota and surrounding states. Students compete by grade level in area competitions in March and April. Though 2021 competitions were held virtually, we are excited to plan for in-person competitions in 2022, with 55 competition sites now accepting registrations.

Teachers Lewis Aase and Julia Espe co-founded Math Masters in 1989 to augment math education beyond the classroom. That year, the first Math Masters event in Austin, Minnesota hosted 150 students. Since that time, nearly 100,000 students have competed in Math Masters competitions.

"My students love being able to say that they were selected to the Math Masters team. At our school, many math students set goals to make the team and be able to represent our school. Even if they don't win a team or individual award, the experience they gain from being around other kids their age from across the state is such an incredible experience they don't get to have in regular academics."

- Josiah Breiter, Math Masters Coach and Teacher, All Saints Catholic School, Lakeville

THANK YOU TO OUR 2021 SPONSORS

Premier Sponsor: The Hormel Foundation

Platinum Sponsor: University of Minnesota College of Science & Engineering

Gold Sponsor: Bolton & Menk, Inc.

Silver Sponsor: Rochester Community Banks

Bronze Sponsors: Mattson Macdonald Young ♦ Sterling State Bank ♦ Terracon

2022 Sponsorship Levels

Join us as we build momentum in our schools and communities, expanding our efforts to support and encourage students who love math.

	ELITE (\$7500) <i>(one available)</i>	PREMIER (\$5000)	PLATINUM (\$2500)	GOLD (\$1500)	SILVER (\$1000)	BRONZE (\$500)

How to Reserve Your Sponsorship

Visit <http://www.math-masters.org/about/our-sponsors/> to reserve your 2022 sponsorship.

Deadline – January 7, 2022

To help us appropriately plan and recognize our 2022 sponsors throughout the entire year, please reserve your sponsorship by Jan. 7, 2022.

"I really liked that we got to compete with other schools to see who would win. Even though it was super nerve wracking, it was still really fun to do. I also really liked that we got to learn how to do more challenging math that would help us at the competition."

- Ruby, Math Masters competitor
