

Sponsor Today's Students and Tomorrow's Professionals!

November 2023

On behalf of thousands of students who participate each year in the Math Masters competition program, we invite you to become a 2024 Math Masters sponsor and join us in support of future professionals in math- and STEM-focused careers, including engineering, finance, science and economics.

The Students You'll Support

Your sponsorship will help Math Masters continue to grow and reach more students in Minnesota and neighboring states. New in 2024, Math Masters added a Team Affiliate registration and a competition exclusively for individuals. Our 4th grade competitions, new in 2022, hosted more than 1,100 4th graders in just two years. Math Masters welcomes and encourages all public, private and homeschool students. Your support also helps keep registration fees low, which in turn keeps participation accessible for all.

What is Math Masters?

The Math Masters mathematics competition program challenges 4th, 5th and 6th grade students to use critical thinking and problem-solving skills in a fun competition setting. Students compete as individuals and on teams to solve math problems, receiving recognition for their academic achievements.

Our annual competitions typically engage thousands of students throughout Minnesota and surrounding states. Students compete by grade level in area competitions in March and April. In 2023, Math Masters welcomed 4,640 students to 55 competition sites. Sixty—two 2024 competition sites are now open for registration.

Teachers Lewis Aase and Julia Espe co-founded Math Masters in 1989 to augment math education beyond the classroom. That year, the first Math Masters event in Austin, MN hosted 150 students. Since that time, more than 125,000 students have competed in Math Masters.

"Our school, in a cash-strapped district, isn't able to provide much programming for advanced learners. Math Masters perfectly filled that gap – kids that LOVE math got the chance to join, have fun, work as a team, and learn new skills. Three thumbs up!"

- Laura, Math Masters Coach, Minneapolis

THANK YOU TO OUR 2023 SPONSORS

Premier Sponsors: The Hormel Foundation ♦ Enbridge

Platinum Sponsor: Bolton & Menk, Inc.

Gold Sponsor: Great River Energy

Bronze Sponsors: Mattson Macdonald Young ♦ Sterling State Bank
