

## Sponsor Today's Students and Tomorrow's Professionals!

November 2024

On behalf of thousands of students who participate in Math Masters each year, we invite you to become a 2025 Math Masters sponsor and join us in support of future professionals in math- and STEM-focused careers, including engineering, finance, science and economics.

### The Students You'll Support

Your sponsorship will help Math Masters continue to grow and reach more students in Minnesota and neighboring states. Our 4<sup>th</sup> grade competitions, new in 2022, have grown from 332 students in 2022 to 1150 students in 2024 and represent our fastest-growing competitions. Math Masters welcomes and encourages all public, private and homeschool students. Your support also helps keep registration fees low, which in turn keeps participation accessible for all.

### What is Math Masters? Watch Our Video!

The Math Masters mathematics competition program challenges 4<sup>th</sup>, 5<sup>th</sup> and 6<sup>th</sup> grade students to use critical thinking and problem-solving skills in a fun competition setting. Students compete as individuals and on teams to solve math problems, receiving recognition for their academic achievements.

Our annual competitions typically engage thousands of students throughout Minnesota and surrounding states. Students compete by grade level in area competitions in March and April. In 2024, Math Masters welcomed 5,024 students to 56 competition sites. For 2025, 74 competition sites are now open for registration.

Teachers Lewis Aase and Julia Espe co-founded Math Masters in 1989 to augment math education beyond the classroom. That year, the first Math Masters event in Austin, MN hosted 150 students. Since that time, more than 130,000 students have competed in Math Masters.

*"Our school, in a cash-strapped district, isn't able to provide much programming for advanced learners. Math Masters perfectly filled that gap – kids that LOVE math got the chance to join, have fun, work as a team, and learn new skills. Three thumbs up!"*

*- Laura, Math Masters Coach, Minneapolis*

### THANK YOU TO OUR 2024 SPONSORS

**Premier Sponsors:** The Hormel Foundation ◊ Enbridge

**Platinum Sponsor:** Ames Construction

**Gold Sponsor:** Great River Energy

**Silver Sponsor:** No. Mankato Activities & Business Assn.
